Semper Paratus Arms, LLC in association with Reeds Indoor Range, is proud to bring you a 2 day armorer course designed to cover the AR15 family of weapons.

### **Course Overview**

This class will be taught using various media sources (video, PowerPoint, and pictures), as well as extensive hands on course work. All students will need to provide their own AR rifle/pistol for the course. At the conclusion of the course, all students should be able to assemble a fully functional weapon from parts. In addition they should be able to recognize common malfunctions, and be able to troubleshoot issues that are frequently encountered. This is course is not company or brand specific, and is applicable to almost all direct impingement system AR rifles and pistols.

The course will conclude with all students taking a written, as well as hands on test; which will include the complete disassembly and reassembly of the weapon, followed by a functions test.

## Course Outline

### Day 1:

- Introduction to the AR15 platform, its' history, and cycle of operation.
- Parts breakdown and nomenclature.
